2nd April 2022

To: Heads of IAPWS National Committees and IAPWS Working Group Chairs

Topic: Confirmation of IAPWS 2022 Annual Meeting

In conjunction with David Addison, Chair of the New Zealand National Committee (NZAPWS) we are pleased to announce that the 2022 IAPWS annual meetings will be held in Rotorua, New Zealand on 27th November – 2nd December 2022. The meeting will be hosted by NZAPWS and held at the Novotel in Rotorua which has the attributes for a great IAPWS location (<https://all.accor.com/hotel/1874/index.en.shtml>) and has the facilities usually required for IAPWS meetings.

Rotorua is located approximately 230 kms south of Auckland and is located in an active geothermal system with geysers, hot pools and mud pools around the city and is a major tourist destination and a major hub for the New Zealand geothermal industry. Auckland is the main international entry point for Aotearoa/New Zealand and Rotorua can be reached by car, bus or domestic flight. More information on Rotorua can be found at <https://www.rotoruanz.com>

The IAPWS Meetings website is under development by NZAPWS and will include details on registration, travel, accommodation, IAPWS meetings and possible accompanying person's programme. In the meantime we plan for the following usual IAPWS activities:

- Welcome Reception, Sunday evening, 27th November 2022.
- Initial Executive Committee Meeting, Monday Morning 28th November 2022 (1.5 -2 hours).
- IAPWS Symposium, Wednesday, 30th November 2022. Topics will concentrate on current Geothermal and future supercritical Geothermal. This will include the 2022 Helmholtz Lecture.
- IAPWS Dinner, Wednesday evening, 30th November 2022 at a typical NZ site to be decided.
- IAPWS Executive Meeting, Friday morning, 2nd December 2022 (usually 3 – 4 hours).
- Technical Tour of geothermal field and power plant, Friday afternoon, 2nd December 2022.
- Working Group meetings to be arranged on Monday, Tuesday and Thursday by WG Chairmen.
- Special Working Group seminars will also be arranged with topics to be decided.

Please circulate this information to your respective National Committee or Working Group members and ask them to revert with any questions/comments.

Best regards. We look forward to seeing you at a live IAPWS meeting in 2022.

Masaru Nakahara, IAPWS President
Dan Friend, IAPWS Vice President
Barry Dooley, IAPWS Executive Secretary

Subject: IAPWS 2022 Annual Meeting

11th March 2022

To: Heads of IAPWS National Committees and IAPWS Working Group Chairs

Topic: Possible IAPWS 2022 Annual Meeting

Thanks for your response to our 16th February 2022 note on possible membership attendance at an IAPWS Annual Meeting in November 2022 in New Zealand. The response was good with between 40 and 50 people indicating that they might attend. We have now had feedback from David Addison (Chair, NZAPWS) after meeting with the NZAPWS Committee on Thursday 10th March 2022. The NZAPWS committee are still reviewing the current New Zealand government Corona Virus related restrictions, the financial situation with the hotel and working on a budget. They suggest waiting until May to make a final decision based on having more clarity around the Corona Virus situation in New Zealand and globally, and the lifting of current travel restrictions to New Zealand. There is also a suggestion to hold the meeting in the week of 27th November 2022 to 2nd December 2022 which will allow geothermal scientists/engineers to attend an IAPWS meeting following the New Zealand Geothermal Conference in Auckland which is now scheduled for the 23rd - 25th of November.

We will keep you up to date with the situation and plan to have a final decision by early May 2022.

Please circulate to your respective National Committee or Working Group members and revert with any comments or suggestions.

Best regards. Hopefully we can have a live IAPWS meeting in 2022:

Masaru Nakahara, IAPWS President

Dan Friend, IAPWS Vice President

Barry Dooley, IAPWS Executive Secretary
